

Mitchell S. Freedman

Initiative Manager, Engineering Liaison | mitfreedm@gmail.com | (561) 846-2145 | Hoboken, NJ | mitch-freedman.com

WORK EXPERIENCE

United Bank of Switzerland (UBS), R&D, WMA

Aug. 2019 – Jan. 2026

Co-Initiative Manager, Branch Manager Supervisory System (BMSS) | Apr. 2024 – Jan. 2026

Weehawken, NJ

- Co-led updates to a Tier 1 financial compliance platform that combined rule-based logic and supervised learning to review 2.5M+ daily orders against 50+ regulatory controls, reversing non-compliant Financial Advisor activity.
- Liaison between secondary senior stakeholders & engineers; translated new regulatory requirements into technical specifications, documented changes and led defect triage in JIRA delivering 87% of projected product roadmap.
- Drafted product vision in Figma alongside UI designers. Provisioned rule logic for novel processes, gathered feedback from in-field demos and Legal & Compliance on language before passing conditions to engineers.
- Collated & documented evidence demonstrating completion of regulatory mandates to ensure audit readiness.

Project & Vendor Manager, Oracle Exit, (DB Engineering) | Mar. 2022 – Mar. 2024

- Supervised & directed communications for bank-wide initiative migrating ~15K Oracle DBI's to preferred alternative, delivering ~\$17M (13%) in savings across infra, support, & EOL costs; tracking progress via Power BI.
- Controlled vendor management for Proof-of-Concept integrations via Oracle reduction; oversaw deliverables, budgets & contract amendments, site coordination, travel, vendor relations, and stakeholder engagement.

Software Engineer and Automotive researcher, Client Marketing Launch-Pad (CML) | Aug. 2019– Feb. 2022

- Refactored core code to improve personalization and Adobe campaign flexibility, working with solution architects using JavaScript (front and back end); reduced campaign turnaround time for AB tests by ~25%.
- Collaborated with automotive intelligence teams to document policy and consumer-driven segmentations.

High5Games

Jan. 2017 – Aug. 2017

Game Compression Engineer, Research and Tooling

One World Trade, NYC

- Developed a compression analysis tool in Python & C++ to assess structural similarities (SSIM) in video game graphics; used simple computer vision skills to identify corrupt artifacts in compressed 'sprites'.
- Designed a frame-extraction tool for proprietary video format, BINK, preserving alpha channels for artistic use.

Schindler Elevator Corporation

Jan. 2015 – Dec. 2015

Jr. Autonomous Robotics Designer | Sep. 2015 – Dec. 2015

Randolph, NJ

- Created CAD models, researched and sourced mechanical & electronic components to construct 3D-printed prototype robots designed to test elevators, each carrying max load of 70lbs & able to cover 1in 'sill gap'.
- Tested a Bluetooth & Arduino communication system for multi-robot location sharing for coordinated actions.

Google Glass application developer | Jan. 2015 – May. 2015

- Designed and developed a hands-free note-taking and checklist application for Google Glass with Android, enabling elevator technicians to complete safety inspections while maintaining full operational mobility.

EDUCATION

Stevens Institute of Technology

Hoboken, NJ

Master of Business Administration (M.B.A) | Minor: Artificial Intelligence (AI)

Graduated May 2026

Bachelor of Science: Computer Science | Minor: Automotive Engineering

Graduated May 2018

Highlighted courses: *Computer Visions, Applied ML, Human-Computer Interaction, Management of AI technologies, Marketing and Operations Management, Business analytics.*

Capstone Project: Statistical VS Deep Learning methods in predicting Formula 1 lap times **Completed May 2026**

CERTIFICATIONS, SKILLS, TECHNOLOGIES & INTERESTS

Certifications: Micros Office (MOS), Autodesk Inventor, Six Sigma Green, CSM | **Pursuing** Project Management Professional (PMP)

Skills: Product Strategy; Tech. Program Management; Regulatory & Risk Systems; Executive Presentation Design; Storytelling.

Technologies: JIRA, Git, GitLab, Cucumber, Python, Java, C/C++, SQL, Power BI, Tableau, HTML/CSS, AI relevant tools.

Interests: Motorsport (Cadillac V-Performance Academy Graduate); Professional Photography, Cooking, Carpentry & 3D Printing.

US Citizen | Willing to travel up to 33% | References upon request
